ACTIVITIES OF CRIME-STOPPERS TEAM IN 2012

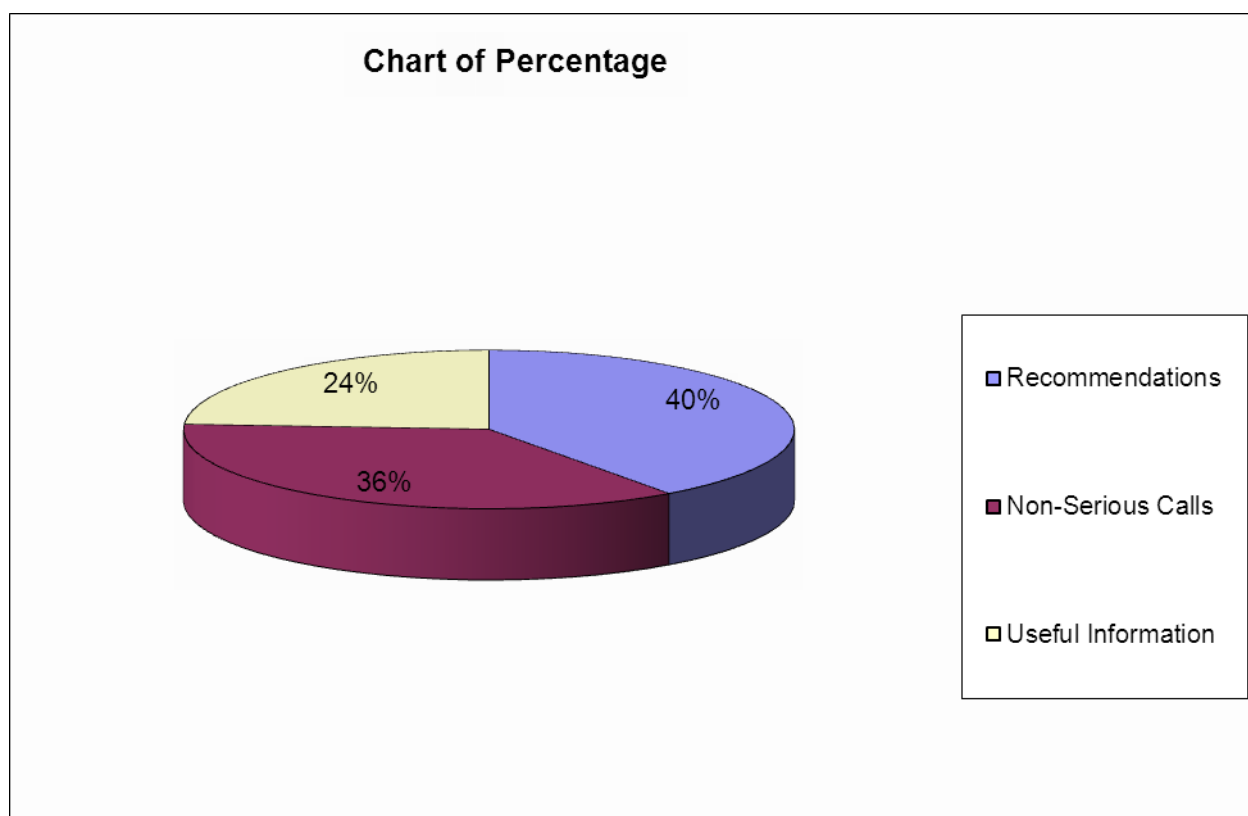

JANUARY, 2013

I – INTRODUCTION

The Crime-Stoppers Team ensures that any person with information on the perpetration or perpetrator of a criminal offence (CO), who wishes to stay anonymous, forwards such information to the police by calling the “Crime-Stoppers” hotline - 080 020 505 – which covers the entire territory of Bosnia and Herzegovina. A call to the “Crime-Stoppers” hotline is free, which means that the calls are not charged to persons potentially reporting criminal offences.

The “Crime-Stoppers” guarantee anonymity. The citizens are not required to leave their personal information or any other data which might reveal their identity, except in situations when a person reporting insists and voluntarily discloses their identity and expresses readiness for a direct contact and cooperation, with the aim to disclose information at their disposal. Officials of the Crime-Stoppers Team do not have displayed an incoming call number.

The method of handling telephone calls by the officials of the “Crime-Stoppers” Team is regulated by the Instruction on the Team’s Police Officials Method of Work.

II – STRUCTURE OF CALLS IN 2012

In 2012, 4.535 calls to the “Crime-Stoppers” hotline were registered. In the majority of these calls citizens asked for advice on the exercise of their rights (1.792 or 40%). In addition, 1.632 or 36% of non-serious calls were registered. The lowest and the most important number of calls for the service were those based on which information were developed and sent for further procedure to the competent police agencies and by which the citizens who called the “Crime-Stoppers” hotline provided information on perpetrated criminal offences. In 2012, 1.111 of such calls were registered or 24% of the total number of calls.

In their daily talks with reporting persons, the “Crime-Stoppers” Team officials confirm their cooperation with the public and thereby encourage them to share information on perpetrated or planned criminal offences with the police and become a part of the country-s security system.

III – STRUCTURE OF DEVELOPED INFORMATION SUBMITTED FOR FURTHER PROCEDURE TO POLICE AGENCIES IN BH (Addendum 1)

In 2012, 1.096 information, i.e. 4x4 reports, were developed and submitted for further procedure to the competent police agencies in BH. Out of the total number of information, 126 were submitted for procedure to the organisational units of SIPA and other information were submitted to the Entity and Cantonal Ministries of Interior, Border Police BH and Brčko District Police. In addition, 15 information were forwarded to other law enforcement agencies (Indirect Taxation Authority, Intelligence Security Agency, High Judicial and Prosecutorial Council, Ministry of Justice BH, etc.).

A comparative analysis shows that in 2012 there was a reduction by 26.7% in the number of developed information compared to 2009 when 1.157 pieces of information were developed. The analysis of criminal offences that the information refer to shows a slight increase of criminal offences of corruption, terrorism and document forgery compared to 2009, and a reduction in the number of information on all other criminal offences compared to the previous year.

Out of the total number of information forwarded in 2012, 106 were received via the “Crime-Stoppers” web page - www.krimolovci.ba.

In this reporting period, due to the end of the EUPM Mission that designed and developed it, as well as certain technical issues, the “Crime-Stoppers” web page ceased being operational. Competent services of the Agency are taking action to establish the web page as soon as possible for a more efficient operation of the “Crime-Stoppers” Team.

IV – OVERVIEW OF FEEDBACK SUBMITTED BY RELEVANT POLICE AGENCIES IN 2012 AND COMPARATIVE DATA FOR 2011 (Addendum 2)

Upon checks of the allegations from the submitted reports in 2012, 785 pieces of feedback were received from the competent agencies in BH, which also include feedback to information received in previous years, and a number of them refer to information from 2012. When comparing this number the number of received feedback in 2011 (585), it is clear that there was a 25.5% increase.

Out of the total number of feedback, during checks of the allegations, 38 reports were submitted to the competent Prosecutor's Offices on grounds for suspicion of the perpetration of a criminal offence and 55 reports were submitted for evaluation and opinion. In addition, eight requests for the verification of responsibility for a violation were submitted.

For 61 pieces of information, allegations were either confirmed and legislative actions and measures were taken, or the investigation was not initiated, or they would be useful for future operational work, or such allegations were already known to the police agencies.

During the checks of the allegations, 28 reports on grounds for suspicion of the perpetration of a criminal offence were submitted to the competent Prosecutors' Offices and 54 reports were submitted for evaluation and opinion. Also, five requests for the verification of responsibility for a violation were submitted.

A comparative analysis with the year 2011 shows that in 2012 there was 26.3% increase in the number of submitted reports on grounds for suspicion on a perpetrated criminal offence, 1.8% increase in the number of reports submitted to the Prosecutor's Offices for evaluation and 37.5% increase in the number of submitted violation reports.
